

To the distinguished mediators of IMI

Dear mediator of the IMI community,

the Florence International Mediation Chamber (FIMC) would like to invite you to become part of our organization through the launch of a new project.

Founded in May 2015, FIMC offers mediation and dispute resolution to individuals and companies that find themselves operating in an increasingly competitive global market and wish to choose Florence as the site for the resolution of all current and future disputes.

Since its establishment, FIMC has already become a pillar of international mediation in Italy, organizing mediations for significant international commercial disputes. The success of our organization is greatly due to the FIMC mediators, which are highly experienced and successful ones. According to FIMC rules, all chartered mediators on this list must be certified by institutions in the field of mediation which apply assessment programs and evaluation criteria whose standards are equivalent or superior to those provided by the International Mediation Institute (IMI). It is because of the high caliber and reputation of IMI standards that FIMC would like to ask you to come and join this list of mediators.

Our goal is to create panels of IMI qualified mediators who specialize in the dispute resolution of the major industries of Tuscany. The two most prominent industries we have here are agricultural and manufacturing business, which include the typical Tuscan food and wine produce as well as famous fashion brands. Therefore, as a result of this industry, we are also forming a panel for Intellectual Property. Members of these panels will act as mediators to international disputes within their area of expertise and will also become members of the general FIMC approved mediator list. This means that they will also have the opportunity to take on FIMC mediation cases outside of their specialized panels. If you are available to be a part of this project or would like to learn more about it, please contact our team on this email: fimc@camcom.it. If you would like to have further information on FIMC you may also visit our website: <http://www.fimcmediation.com>.

We look forward to hearing from you and hope to establish a professional dialogue soon

Best regards

Laura Benedetto
Chamber of Commerce Secretary General
